

# Planning Application and Appeals Quick Search

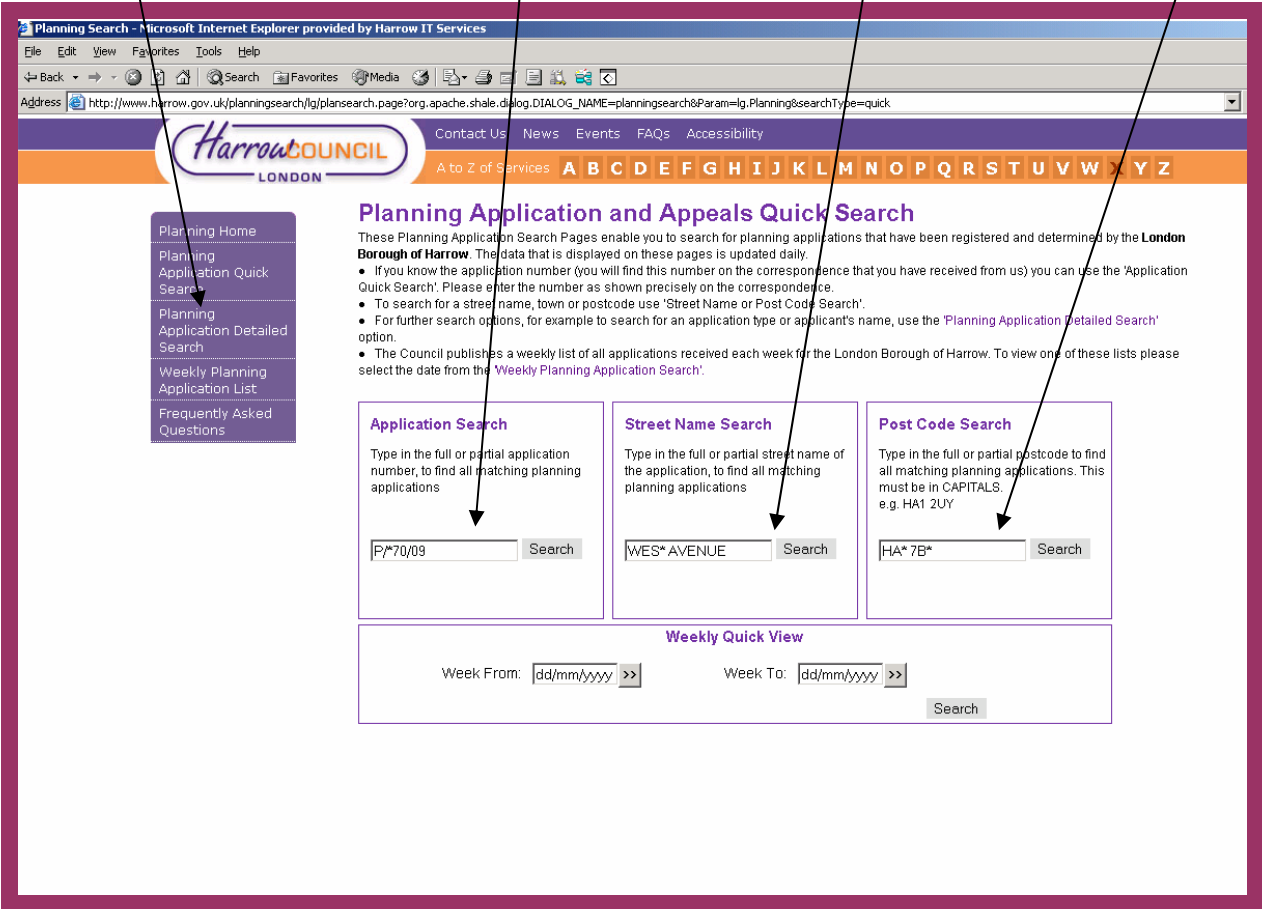

Use this screen to search when you know the application reference number or full address or post code of the property.

Click on one of the options to select the kind of search you would like to use

Use this field to search if you know the application number

Use this field to search if you know the address of the property

Use this field to search if you know the postcode of the property.

The screenshot shows the Harrow Council Planning Search interface. On the left is a navigation menu with options: Planning Home, Planning Application Quick Search, Planning Application Detailed Search, Weekly Planning Application List, and Frequently Asked Questions. The main content area is titled 'Planning Application and Appeals Quick Search' and includes an introductory paragraph and a list of search instructions. Below this are three search boxes: 'Application Search' (with example 'P\*70/09'), 'Street Name Search' (with example 'WES\* AVENUE'), and 'Post Code Search' (with example 'HA\* 7B\*'). At the bottom is a 'Weekly Quick View' section with date pickers for 'Week From' and 'Week To' and a search button. Arrows from the callout boxes point to the navigation menu, the three search boxes, and the 'Post Code Search' box.

## Remember:

- You can only use one of the search boxes at any time
- You can use an asterisk (\*) as a wildcard if you are not sure of the spelling or full number, for example in the application search to find any reference which ends 09 you could type P\*\09. This would bring up a list of applications ending in 09
- Always use **CAPITALS** when you enter a letter in the search boxes.

# Planning Application and Appeal Detailed Search

Use this search when you would like to look at all applications within a ward or look at applications received within certain date ranges

The screenshot shows a web browser window displaying the Harrow Council Planning Search page. The page title is "Planning Application and Appeal Detailed Search". The browser address bar shows the URL: [http://www.harrow.gov.uk/planningsearch/lq/plansearch.page?org.apache.shale.dialog.DIALOG\\_NAME=planningsearch&Param=lq.PlanningSearchType=detailed](http://www.harrow.gov.uk/planningsearch/lq/plansearch.page?org.apache.shale.dialog.DIALOG_NAME=planningsearch&Param=lq.PlanningSearchType=detailed). The page features a navigation menu on the left with links to "Planning Home", "Planning Application Quick Search", "Planning Application Detailed Search", "Weekly Planning Application List", and "Frequently Asked Questions". The main content area contains three search criteria sections: "APPLICATION LOCATION SEARCH", "SEARCH BY APPLICANT / AGENT", and "SEARCH BY APPLICATION STATUS". Each section has several input fields and dropdown menus. The "APPLICATION LOCATION SEARCH" section includes fields for ADDRESS, POSTCODE, and WARD (with a dropdown menu showing options like "A&J Auth Area 1(E)", "A&J Auth Area 2(W)", "Belmont", "Canons", and "Central"). The "SEARCH BY APPLICANT / AGENT" section includes fields for APPLICATION NUMBER (with a text input containing "P\*75/09"), APPLICANT NAME, AGENT NAME, AGENT ADDRESS, and PROPOSAL. The "SEARCH BY APPLICATION STATUS" section includes fields for DATE RECEIVED (FROM) and DATE RECEIVED (TO) (both with date pickers), STATUS (with a dropdown menu showing options like "Appeal Received", "Appeal Withdrawn", "Current", "Decided", and "Invalid"), and DECISION DATE (FROM) and DECISION DATE (TO) (both with date pickers). A "Search" button is located at the bottom of the form. The footer of the page includes a "Skip to the top" link, copyright information for 2008 Harrow Council, and links to "RSS feed", "Disclaimer", "Site map", and "Website statistics". There are also logos for "get textHELP Browsealoud", "VIPA", "YOUR LONDON", and "Directgov".

## Remember:

- You **CAN** use any of the search boxes simultaneously; for instance you could search for all applications within a ward between certain dates by selecting the ward and then entering the dates.
- You can use an asterisk (\*) as a wildcard if you are unsure of the spelling or full number; for example, in the application search, to find any reference which ends 09 you could type P\*\09. This would bring up a list of applications ending in 09
- Always use **CAPITALS** when you enter a letter in the search boxes
