

Keep your home at no running cost

Help pay for your care

Many people who use care and support services will pay for the costs, in particular, if they own their property. If you and your family find yourself in this situation you may have to sell your home to pay the care fees.

What are the alternatives?

We may be able to help you to keep your empty home while earning money towards your care costs through Help2Let. Letting yours or a family member's home and using all or part of the rental income towards funding the cost of care can help if you don't want to sell or if a quick sale makes it difficult to achieve the full value.
