Introduction and guidance on completing the report

1. Section 88P of the School Standards and Framework Act 1998 (the Act) requires every local authority to make an annual report to the adjudicator. The Chief Adjudicator then includes a summary of these reports in her annual report to the Secretary for State for Education. The School Admissions Code (the Code) sets out the requirements for reports by local authorities in paragraph 6. Paragraph 3.23 specifies what must be included as a minimum in the report to the adjudicator and makes provision for the local authority to include any other matters. The report **must** be returned to the Office of the Schools Adjudicator by **30 June 2019**.
2. Please note that the specified date for returning this form by 30 June is a Code requirement; this is why some data are asked for by financial year.
3. We have made some changes to the information and categories of information sought this year:
 - a. we have removed references to “all through” schools and instead would be grateful if local authorities would follow the approach used in statutory provisions and in the Department for Education Statistical First Release¹ and the Education Middle School (England) Regulations 2002², and
 - b. we have decided not to use the term “own admission authority schools” to mean those schools for which the local authority is not the admission authority (that is foundation, voluntary aided and academy schools). This is because a large number of arrangements are now determined by multi-academy trusts. We will therefore refer to ‘schools for which the local authority is not the admission authority’.
4. Local authorities will notice that we have not included this year a number of questions which have been asked in past years. This is because we judge that we are unlikely to receive much information that adds to the existing body of knowledge and do not wish to take up local authorities’ time unnecessarily. We have not asked:
 - a. for details of the particular provisions of admission arrangements determined by other admission authorities challenged by local authorities;
 - b. local authorities’ views of how well the interests of children with special educational needs or disabilities are met at the normal points of admission;
 - c. about the advantages and disadvantages of co-ordinating in year admissions;
 - d. about the reliance on paragraph 3.12 of the Code by other admission authorities in the local authority’s area;
 - e. for information about admission authorities’ approaches to deciding whether or not they had places available in year; or

¹ [Department for Education Statistical First Release](#)

² [The Education Middle School \(England\) Regulations 2002](#)

- f. for the number of children refused admission to a school under the fair access protocol.

Local authorities are, of course, free to comment on any of these matters if they wish to do so under section 6. The views expressed by local authorities in previous years also remain a matter of public record.

5. We are asking new questions this year about:

- a. the proportion of schools with other admission authorities in the local authority area for which the local authority ranks preferences for the schools concerned on the admission authorities' behalf;
- b. use of oversubscription criteria which give priority to children adopted having previously been in care abroad; and
- c. how well served are children who are looked after by another local authority but being educated in the area of the local authority submitting the report.

6. We continue to ask about the use of the premiums in admission arrangements but have provided further guidance on this in footnote 11. In particular, we ask local authorities to include in their responses schools using part of any of the premiums (such as free school meals eligibility). Please consider this footnote before answering the questions on this matter.

None Minority Majority All

ii. Please provide any comments you wish to make in respect of provision of rankings:

We work well with our schools and have SLAs to rank the applications on behalf our schools where the schools does not have supplementary information form. The own admissions authorities that we rank applications for do however have to sign off the ranked list.

iii. Does the local authority charge schools for providing rank preferences?

Yes No

iv. Does the local authority rank preferences for other admission authorities in OTHER local authority areas and, if so, for how many schools?

Section 2 - In year admissions⁴

A. The number of in year admissions

- i. Do you know the number of in year admissions to primary schools in your local authority area? Yes No

- ii. If 'no' is this for one or more of the following reasons (tick boxes as appropriate) because:

- schools with other admission authorities are not complying with the requirement in paragraph 2.22 of the Code to notify the local authority of applications for places and the outcome;
- the local authority does not use the information provided by schools with other admission authorities to collect the numbers of in year admissions;
and/or

other?

(please specify) – The local authority co-ordinates in-year applications for most of the schools in the local authority. The schools that accept direct applications and make their own offers and will notify the local authority that an application has been received and the outcome when the pupil was not previously in school, however will not advise the local authority of every application if the parents are simply making an in-year request to move schools. Where schools do notify us and the pupil is already in school we would not record that information. In the majority of cases the applicant has already completed an in-year application with the Local Authority.

⁴ By in year we mean admissions to a school concerned (for example during the course of any school admission.

iii. Do you know the number of in year admissions to secondary schools in your area? Yes No

iv. If 'no' is this for one or more of the following reasons (tick boxes as appropriate) because:

- schools with other admission authorities are not complying with paragraph 2.22 of the Code;
- the local authority does not use the information provided by schools with other admission authorities to collate the numbers of in year admissions;
and/or
- other?

(please specify) – Please see response for Primary.

v. If the local authority does know the number of in year admissions to state funded schools in its area, please complete the following table.

	Primary aged children	Secondary aged children
Number of in year admissions between 1/9/17 and 31/8/18		
Number of in year admissions between 1/9/18 and 31/3/19		

B Co-ordination of in year admissions

i. To what proportion of community and voluntary controlled schools did the local authority delegate responsibility for in year admissions in the academic year 2018/19?

- a) Primary: Not applicable⁵ None Minority Majority All
- b) Secondary: Not applicable⁵ None Minority Majority All

ii. For what proportion of schools for which the local authority is not the admission authority does the local authority co-ordinate in year admissions?

⁵ 'Not applicable' will only be appropriate if the local authority has no community or voluntary controlled primary/secondary schools.

- a) Primary: None Minority Majority All
b) Secondary: None Minority Majority All

iii. Please provide any comments on the co-ordination of in year admissions if you wish.

C Looked after children and previously looked after children

- i. How well does the in year admissions system serve children who are looked after by your local authority and who are being educated in your area?

Not at all Not well Well Very well Not applicable⁶

- ii. How well do the in year admission systems in other local authority areas serve the interests of your looked after children?

Not at all Not well Well Very well Not applicable⁶

- iii. How well does your admissions system serve the interests of children who are looked after by other local authorities but educated in your area?

Not at all Not well Well Very well Not applicable⁶

- iv. How well does your in year admissions system serve the interests of previously looked after children?

Not at all Not well Well Very well Not applicable⁶

v. Please give examples of any good or poor practice or difficulties which support or exemplify your answers about looked after and previously looked after children:

The schools in Harrow work really well and understand the need to admit pupils who are looked after as quickly possible. On a rare occasion there may be delay, for particular reasons but on the whole offers are made quickly and pupils are admitted.

As a Local Authority, we have had to direct schools in other Local Authorities to admit looked after children or escalate the matter to the SOS for a direction. There can be delays and sometimes this will result in the breakdown of the foster placement and the young person being moved to another area. This then means that the Local Authority has to start the whole process again.

⁶ 'Not applicable' will only be appropriate if there are no children falling within this definition.

D Children with special educational needs and/or disabilities

- i. How well served are children with special educational needs and/or disabilities who have an education health and care plan that names a school when they need to be admitted in year?

Not at all Not well Well Very well Not applicable⁷

- ii. How well served are children with special educational needs and/or disabilities who do not have an education health and care plan when they need to be admitted in year?

Not at all Not well Well Very well Don't know

- iii. Please give examples of good or poor practice or difficulties which support or exemplify your answers:

There can be a delay in pupils with complex medical needs and special educational needs accessing suitable education for a number of reasons. The main reason being lack of information of their needs. In Harrow where the young person is unable to access mainstream education and does not have an EHC plan, they are offered Home Tuition and with consent from parents an assessment is undertaken quickly. In some cases while the assessments are taking place after an initial Educational Psychology (EP) assessment, the SENAR service are able to secure an assessment place at a special school. Where it is deemed appropriate for the pupil to attend a mainstream school the school offered will be advised to access support and advice from the EP service. Each application is considered individually and access to provision is agreed with parental consent.

E Other children⁸

- i. How well served are other children when they need a new school place in year?

Not at all Not well Well Very well Don't know

- ii. Please provide any comments you wish to make in respect of other children:

All applicants are considered in accordance with admission arrangements regardless of whether they are new to the area or requesting a place at a different

Section 4 - Pupil, service and early years pupil premiums (the premiums)¹¹

A. How many community or voluntary controlled schools in the local authority area will use each premium as an oversubscription criterion (including the tiebreaker) for admissions in 2020?	Primary	Secondary ¹² <u>excluding</u> grammar	Grammar ¹²
Early years pupil premium	0	N/A	N/A

¹¹ Please include in these figures all schools whose arrangements give priority on the basis of eligibility for one or more of the premiums or part thereof except where the only sub-group is looked after and previously looked after children as all schools must give first priority to these children.

Admission authorities can limit priority to specific sub-groups of those who attract a premium. Examples are:

- children of parents who are currently serving in the UK regular armed forces (rather than all children who attract the service premium); or
- children who are eligible for free school meals at the time of application (rather than all children who attract the pupil premium).

If such sub-groups have priority at any point within the oversubscription criteria, they should be included in the totals for this table even if there is no specific use of the terms, 'pupil premium,' 'early years premium' or 'service premium' in the arrangements. Paragraphs 1.39A and 1.39B of the Code provide the relevant exceptions to paragraph 1.9f (which prohibits giving a priority to a child according to the occupational or financial status of parents applying).

¹² Do not include use in post 16 arrangements
