The above tree works are proposed as a remedy to the differential foundation movement at the insured property and to ensure the long-term stability of the building. 2. The above tree works are proposed to limit the extent and need for expensive and disruptive engineering repair works at the insured property. In this instance the estimated repair costs are likely to vary between ?22,000 and ?300,000, depending upon whether the tree can be removed or must remain. 3. The above tree works are proposed to limit the duration of any claim period and therefore allow the landowner their right to the peaceful enjoyment of their property. 4. We are satisfied that the evidence obtained following completion of our Arboricultural Implication Assessment report completed 15/08/2
