Proposal T1 Lombardy Poplar - tree is located on the fence line of the property. Tree is getting far too tall and causing issues with blocking light and causing excessive shading of the garden, it is causing an issue with the damaging the fence around it, the tree is also quite close to the building. Tree has a developing cavity in the main crutch area. Reduce tree to the height of the crutch at around 25ft or so and let the tree grow on to hopefully minimise any further damage to surrounding areas. Pictures of the proposed reduction in height are attached to the application.
