PINNERWOOD PARK ESTATE CONSERVATION AREA

ARTICLE 4 DIRECTIONS - What Requires Planning Permission?

A Guidance Note for Residents

Introduction

Since 10th June 1991, properties within the Pinnerwood Park Estate Conservation Area have been subject to a provision known as an 'Article 4 Direction'. This Article 4 Direction placed controls on satellite dishes throughout the entire conservation area and controlled certain forms of development within a defined 'core area'. A subsequent Article 4(2) Direction was established on 25th January 1996 to extend similar controls to the remaining outer areas of the conservation area. This guide provides explanation on what these Directions mean for properties within the conservation area.

The designation of an Article 4 Direction means that certain works previously outside planning control require planning permission. The purpose of the Directions in Pinnerwood Park Estate is to preserve and enhance an area of special architectural and historic interest, with an emphasis on management, rather than restriction. The '*Pinnerwood Park Estate Conservation Area Design Guide*' should be consulted when considering works to your property that require planning permission.

Please note that the following Article 4 Directions are in addition to the standard planning controls established when a Conservation Area is designated. Full details of these standard controls can be found in the Council's leaflet, '*Conservation Areas – Residential Planning Guidelines*'. Both the Design Guide and the Planning Guidelines are available from the Council on request.
