Proposal 1 x Ash to fell to ground level - We appreciate that we have only recently reduced the trees crown volume. In hindsight, we should of applied for full removal. The patio area that the tree oversails is separated from the garden by a retaining wall. This wall was hidden upon previous works under ivy and patio furniture. It has come to light that the wall is having to be re built as its not in great condition. While we do not have an structural engineers report to state that the tree is/was causing problems, my concern is twofold. Firstly that if the wall is rebuilt will the tree cause any damage, secondly if the wall is rebuilt will the disturbance of soil affect the structural integrity of the bank and roots within it. With this in mind, we would like to remove the tree and replant a new tree in a more suitable location.
