Proposal	This work is for the benefit of the neighbour, to provide more light and clearance from his property. T1) Large Poplar on South West border of site: reduce overall crown by 30% or by up to 4 metres to suitable growth points to retain even flowing and consistent canopy outline. T2) Ash next to Poplar: reduce back any branches encroaching on neighbouring property by up to 2.5 metres. T3) Semi Mature Ash near border with Brookshill: Tree is of low amenity value and casting shade on garden of Block 1. Reducing the tree would have limited impact in improving the amenity value of the tree and that area of the garden. It is more appropriate to remove the tree to ground level and open up this space, there are better trees in this area which will become more prominent once the Ash is removed.
