Harrow on the Hill

Application: P/2558/22 **Officer:** Rebecca Farrar **Ward:** Harrow on the Hill
Location: 13 Leigh Court
 Byron Hill Road **App Type:** TPO
 Harrow
 HA2 0HZ
Proposal: T1: Conifer (Cupressocyparis leylandii) Located on the North East side of the rear garden ??? Reduce height by approximately 3-4m and Dome top of canopy. Remove any major deadwood over 50mm. T2: Conifer (Cupressocyparis leylandii) Located to the right of T1 ??? Fell to ground level to give remaining trees sufficient room to grow. T3: Conifer (Cupressocyparis leylandii) Located in the middle of the rear garden ??? Reduce height by approximately 4-5m and Dome top of canopy, stabilising the tree for the future growth. Remove any major deadwood over 50mm. T4: Triple Stem Conifer (Cupressocyparis leylandii) Located directly behind T3 ??? Fell to ground level to give remaining trees sufficient room to grow. T5: Lawson???'s Cypress (Chamaecyparis lawsoniana) Located between T3 & T6 - Reduce height to 1-1.5m and Dome top of canopy. Remove any major deadwood over 50mm. T6: Declining Conifer (Cupressocyparis leylandii) Located on the South West side of the rear garden ??? Fell to ground level to give remaining trees sufficient room to grow. All the trees onsite are competing for light and in the struggle T6 has already started showing signs of decline. The trees absorb all of the light and completely shade out my clients property aswell as T4 impacting on the neighbouring block at King Henry Mews. The trees are rather large for where they are located, with this in mind my advice would be to reduce the height and shape the top of : T1 T3 & T5 as they are the three predominant trees onsite. Completely removing T2 T4 & T6 allowing the 3 more mature trees onsite the space they require to grow. T6 is already declining due to its competition for light with the other trees.
