***A Building Notice application cannot be accepted where either the building is a building to which the Regulatory Reform (Fire Safety) Order 2005 applies (see note 4) or excavation work is to be carried out over or within 3 metres of a public sewer or a building is to be erected fronting onto a private street. A Full Plans application is required in such cases. Please visit:**

<https://www.harrow.gov.uk/planning-developments/building-control-applications/2>

for information on the requirements for Building Control Approval with Full Plans applications.

***Unless you tick the box, you also agree to an extension of time from 5 to 8 weeks and to the application being passed with Requirements if appropriate.**

Persons carrying out building work must give at least 48 hours notice of their intention to commence work.

Please refer to attached notes before completing and submitting this application form.

Please make cheques payable to “**London Borough of Harrow**”. Please refer to the fee guidance notes for additional methods of payment.

Please send your completed application form, appropriate plans and documents and the required Building Notice charge fee to:-

**Building Control Department
London Borough of Harrow
PO Box 37
Harrow
HA3 3QZ**

We are also able to accept a scanned copy of the completed application form along with electronic copies of your plans and details should you wish to submit the application via email. Please email all plans/document as pdf files to bcontrol@harrow.gov.uk Payment can then be made as noted above.

We also accept on-line applications submitted via Submit-A-Plan should you wish to use this method. Please visit www.submitaplan.com for details. Payment can then be made as noted above.

Harrow Building Control

Notes

VAT Registration No. 222421318

1. The applicant is the owner of the property where the work is to be carried out, e.g. the building's owner.
2. If an agent is named all correspondence will be sent to their address.
3. One copy of the notice should be completed and submitted with plans and particulars as appropriate in accordance with the requirements of Building Regulation 13.
4. The Regulatory Reform (Fire Safety) Order 2005 applies to all premises except those stated in article 6(1) of the Order.
i.e. it does not apply to domestic premises occupied as a private dwelling. The Order does however apply to domestic flats where there are communal areas.
5. Subject to certain exceptions a Building Notice submission attracts charges payable by whom or on whose behalf the work is to be carried out. Charges are payable at the time of submission of the application. This is the **Building Notice Charge**. Standard charges are set out in the **Building Regulation Charges Tables**. (See separate fee guidance notes and tables)
Table A prescribes the **Standard** plan and inspection charges payable for small domestic buildings and flat conversions.
Tables B & C prescribes the **Standard** charges for small domestic extensions and certain alterations to a single dwelling and for the erection of certain small garages or car ports.
Table D & E prescribes the **Standard** charges payable for non-domestic extensions and certain alterations however a Building Notice **cannot** be used for these work types.
For all other work not shown as a **Standard** charge in the charges tables the fee(s) will be **Individually Assessed** by Harrow Building Control. A fee quotation request form can be obtained from Harrow Building Control by emailing bcontrol@harrow.gov.uk
6. If you are carrying out multiple extensions and/or alterations on a dwelling 'at the same time', a reduction in the standard charges may be applied; therefore please ask for an individual assessment of the charge for this type of work unless you wish to use the standard charges. For example, an extension with a floor area not exceeding 10m² and a loft conversion with a floor area not exceeding 60m² would require two separate fees. If they are built at the same time, a reduction may be applied to the inspection fee.
7. These standard charges have been set by the authority on the basis that the building work does not consist of, or include, innovative or high risk construction techniques (details available from the authority) and/or the duration of the building work from commencement to completion does not exceed 12 months. Where the duration of the work is likely to exceed 12 months additional charges may be applied.
8. The charges have also been set on the basis that the design and building work is undertaken by a person or company that is competent to carry out the relevant design and building work referred to in the standard charges tables. If they are not, the work may incur supplementary charges. For example, if the work is carried out by a person that is not of a good standard and, due to the quality of the work, more inspections are required than would normally be expected for the type of work, additional charges may be applied.
9. Persons carrying out building work must give at least 48 hours notice of their intention to commence work.
10. Subject to certain provisions of the Public Health Act 1936 and the Water Industry Act 1991, the owners and occupiers of premises are entitled to have their private, foul and surface water drains and sewers connected to appropriate public sewers where available. Persons wishing to make such connections must obtain an application form from the relevant Water Authority; the applicant should allow up to 21 days for permission to be given. Connections of private surface water drains and sewers to watercourses will also require approval from the Council or the National Rivers Authority. For application forms, further information and advice please telephone 0208 424 1585.
11. Trees may affect foundation depths. If section 7 is incorrectly answered delays and/or additional costs may be incurred.

12. These notes are for general guidance only. Particulars regarding the submission of a Building Notice are contained in Regulation 13 of the Building Regulations 2010 and, in respect of charges, in the Building (Local Authority Charges) Regulations 2010 and the current London Borough of Harrow Building Regulation Charges Scheme.
13. Persons proposing to carry out building work or make a material change of use of a building are reminded that permission may be required under the Town and Country Planning Acts. Agreement, as appropriate, may also be required under the provision of the Party Wall etc. Act 1996.
14. Withdrawal of an application and refunds will be subject to an administration charge of a minimum 1 hour charged at the hourly rate as published in the current Scheme of Charges applicable at that time.

Further information and advice regarding the Building Regulations may be obtained from the Building Control Section on 020 8736 6058 or from our website: **www.harrow.gov.uk/buildingcontrol**
