

Harrow Local Plan 2021-2041 - IIA Addendum Consultation

Summary of Representations and Council Responses – 12 February 2026

The following table summarises the consultation responses received in relation to the Integrated Impact Assessment (IIA) Addendum (dated 27 January 2026) (LBH/ED31aa and LBH/ED31ab). The addendum related to the Main Modifications version of the IIA (dated 7 November 2025). The consultation period was from 28th January to 11th February 2026 and only related to the addendum.

For clarity, the Representor Identification (Rep ID) for each unique representor within the table reflects the same Rep ID used for that representor for the Regulation 19 and Main Modification consultation.

To distinguish between representations received in response to the IIA addendum consultation and those received at Main Modification stage, ‘_MM_IAA’ has been added to the representor number in the table of responses.

Consultation responses were recorded in groups with a corresponding Rep ID which are set out as below:

- Individuals (Rep IDs 001 - 095): no representations received
- Statutory bodies (Rep IDs 200s): 3 representations received
- Developer and Agents (Rep IDs – 300s): no representations received
- Interest Groups (Rep IDs – 400s): no representations received

Main Mod(s)	Rep ID	Representor	Representation Summary	Council Response to Representation	Proposed Change
N/A	207_MM_IAA	Natural England	Advised no comments on the IIA Addendum	Noted	No further modification is considered necessary.
