ANIMAL PREVENTATIVE HEALTHCARE PLAN TEMPLATE

*** This template is a generic example of information that Licensed Establishments under the **Animal Welfare (Licensing of Activities Involving Animals) (England) Regulations 2018** may present as part of their Preventative Healthcare Plan. It can be used as a starting point to build up an establishment specific document to record the key procedures and policies undertaken to maintain animal health and welfare within the establishment. Establishments should consult and draft their Preventative Healthcare Plan in conjunction with the vet who has responsibility for the licensed premises. Examples flagged as e.g. are an indication of how the template may be completed. ***

Business (name and address)		
Person responsible for health and welfare (name and phone number)		
Veterinary Practice (name and address)		
Name of responsible veterinary surgeon		
Species, type and number of animals this plan applies to (e.g. breeding bitches, boarded dogs, etc.)		
Plan completed by: (e.g. Vet, animal keeper, establishment director)	**Name**	**Signature** **Date**

ANIMAL PREVENTATIVE HEALTHCARE PLAN

Review completed by (e.g. Vet, animal keeper, establishment director)	Name	Signature Date

Biosecurity Risk Assessment & Management Plan (consider the most common risks for the licensed establishment)

Risk factors	Risk level (High/Moderate/Low)	Prevention of risk	Management of risk
e.g. Newly purchased animals	High	Only purchase animals fully vaccinated and wormed	Verify veterinary records Quarantine new animals for at least 21 days
e.g. Breeding bitches' kennels	Low	Disinfect before birth giving	Keep kennels clean and under regular monitoring
e.g. General public's dogs	Moderate	Ensure walking areas are identified and listed	Ensure one person does not walk more than X dogs at the time
INCOMING ANIMALS			
Newly purchased dogs			
Boarding dogs			
Breeding bitches' kennels

ANIMAL PREVENTATIVE HEALTHCARE PLAN

BUILDINGS OR DESIGNATED ROOMS			
EQUIPMENT			
MISCELLANEOUS			
Cleaning regimes & materials			

 Consider the control of disease, infections and conditions known to affect the different animal types kept at your establishment.

Disease	At risk animals	Preventative measures	Symptoms/Clinical Signs that trigger veterinary care
e.g. Para Influenza	Newly weaned dogs	Vaccinate pre weaning	Coughing, nasal discharge

Preventative Healthcare Management Calendar for all animals kept at your establishment.
Include vaccination, worming and any other required treatment as discussed with the vet responsible for the premises, the action and time of year required. Entry included as an example only.

Disease/infection/condition	Plan of action	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
e.g. Worms	Worming tablet for breeding	✓			✓			✓			✓
